FOR PRESIDENT,

JAMES A. GAREIELD,

OF OHIO,

FOR VICE PRESIDENT,

CHESTER A. ARTHUR,

OF NEW YORK

CONCERNING NEW YORK.

The great State of New York, with its thirty-five electoral votes, is assured for the Republicans. The October elections have decided that. Without New York, the Democrats are hopeless. No well-info-med Democrat has at any time this year based his ember upon any estimate of electoral winniegs from which New York was excluded.

It is sometimes interesting to refer to old prophecies made for a timely or temporary effect, and see how time as it removes all discolorations, and render borne them out. That great Demecratic journal, the New York Sun, seldem vaticinates, and when it does prophesy, forecasts the future with tolerable sometimes. The Sun's pelitical predictions for the year 1880 are likely to earn for it the reputation of a Daniel among newspapers. This is what the Sun said on Oct. 29, 1879, when Robinson was the Democratic candidate pitted against Cornell for the Governorship of the State of New

"If Gov. Robinson is defeated now it is altogether probable that the Democratic candidate for President will lose this State next year.

Gov. Robinson was defeated. A few days before the nomination of General Hancock at Cincinnati, the Sun said that if Tilden were not nominsted the party would go into the campaign with no issue and, to certain defeat. This latter prophesy is also fast coming true. Altogether, the Sun's predictions deserve to rank far bere those of any almanac.

THE ELECTION NEWS.

Our telegrams to-day confirm the tidings of a great Republican victory in Ohio and Indiana. The dispatches received this afternoon put the Republican majority on the general State ticket in Ohio at 2,000. The entire State ticket is elected, and the returns show an average gain over last year of 4,000 votes. The Republicans have elected fifteen Congressa particularly large gain in Garfield's

Indiana has surely gone Republi Leading Democratic paper ablican State ticket by a majority of 7,000. Of the thirteen Congressmen elected, it is certain that nine are Republican, and perhaps ten.

These results give the death blov to Democratic hopes. The Republi-cans will have a walk-over in Novem

EDITORIAL NOTES.

The S. F. Examiner is the first Democratic paper to come to the scratch after that round in Indiana. The Braminer comes up fresh and smiling, and says Indiana is of 'no consequence" to the Democrats. This exhibition of heroic fortitude on the part of our esteemed contemporary is one of the finest things developed by the campaign. We shall not despair of seeing in the columns of some Dem-ocratic paper the manful utlers of that "this result in Indiana will help Chapter No. 7, R. A. M. ". on

The report of the Convention of inveyors General at Salt Lake, which ppears on the local page to-day, will e found to contain much beformation who attended the Convention, so vered matters in relation to Nevade State lands were entistactorily arranged, as detailed in the report.

During the past month the overland railroads carried 8,001 passengers East and 2,663 West—a loss of 428. The loss by sea amounted to 393, there being 965 arrivals and 1,358 departures. The net loss by both routes was 821. This is the first month on record in which there was no gain by either courts.

The three convicts who escaped from the Boise City Penitentiary fell upon a camping party of six, forty miles northeast of Boise City, tied them together securely, took their horses, guns, money, hats etc., and then decamped.

While digging near Palouse, W. T., several days ago, Warren Whitcher unearthed a number of fossilized bones, among them a tusk of an elephant, measuring fourteen feet long. There were also shoulder and leg-bones of an immense size.

#### CRAND CELEBRATION

Next Monday Night-Torch-Light Procession, Bonfires, Music, Orstory,

The glorious victory in Indiana and Ohio will be celebrated by the Republicans of Washoe county next Monday night. The demonstration will be one of the most memorable ever witnessed in Reno. Reno Republicans believe that the results of the October elections decide the campaign for Garfield, and are determined to fitly celebrate the occasion. There will be a grand torch-light procession through the principal streets, blazing bonfires, anvil salutes, fireworks, music by the brass band, etc. Speeches will be delivered in the theater. Hon C. S. Varian will be the principal orator, and a number of other well known speakers will address the assemblage. A great demonstration of enthusiasm is expected from Republican voters. The surrounding country will pour in ants. It is believed that a general illumination will be a part of the programme. Small boys will go wild with delight and firecrackers. After the close of the speech-making in the theatre a dance will probably follow.

Republicans are requested to meet in Justice Young's office at 7 o'clock this evening, to make arrangements for Monday night's celebration.

#### SURVEYORS IN COUNCIL.

REPORT OF THE RECENT SALT LAKE CONVENTION.

Important Conclusions Concerning U. S. Land and Mining Laws.

The Convention called by the Honorable Commissioners of the General Land Office, of the U. S. Surveyors General of the Public Land States and Territories, met at Salt Lake City on the 5 instant, and continued in session seven days, U. S. Surveyor Gen. Wasson, of Arizona, presiding. All the public land States and Territories were represented except New Mexico, Louisiana and Florida. U. S. Surveyor General E. S. Davis of Nevada, being seriously ill and unable to attend, reque ted State Surveyor General Hatch to represent Nevada in his stead. General Hatch consented, and was duly admitted as a member of

Commissioner Williamson, of the that with the advice of the Hon. Sec-part of the Sierrs. Suddenly, on a retary of the Interior he had deemed handsome little flat, a lot of low build-General of the different surveying districts, to consult as to the best oblong. It is full of handsome pine means of securing uniformity in the public land surveying system, and that if existing laws were not adequate make an excellent track. The sight to secure an economical and perfect system of surveying, classifying and disposing of the public domain, it but interesting spectacle. would be the duty of the Convention to recommend such changes in the law as would tend to remedy these defects. The Hon. Commissioner then presented several propositions for consideration, among which were some of the prominent features of the new appointed to arrange these in proper order for discussion. All these propositions were freely, earnestly and in most cases ably discussed, and with few exceptions were unanimously

agreed upon.

The mining laws and instructions were discussed at some length. The conclusion reached was that the present law, with some slight amendments which were recommended, would be acceptable to all the mining States

acceptable to all the mining States and Territories.

The "square location" proposition, for lode claims, was unanimously disapproved. Even Colorado joined in the disapproval.

The proposition to sell pasture lands by the township was also disapproved, but a resolution to lease non-irrigable properties lands for a term of years to

pasture lands for a term of years to eattle men, who should have the right to purchase the same at the expira-tion of ten years, in case no minerals were found thereon within that pe-

riod, was passed.

The "Powell idea" of combining the
Coast, Geodetic, Topographical, Gogrological, State Boundary and Public Land surveying system under one su-pervision was disapproved. Although it did not come before the Convention in definite shape, it was squarely sat down upon when anything of Powell-

ism cropped out.

Many of the important propositions suggested by the Secretary of the Interior and the Commissioner of the eneral Land Office were heartily en-

dorsed.

The proceedings being voluminous, it would be impossible to give here even a synopsis of the business transacted at this Convention. A condensed report will soon be published and distributed by the Commissioner.

The entire proceedings, giving the views of each member on every topic, taken down by short hand reporters and copied by an automatic printing machine, covers nearly two hundred pages of legal cap, and will be printed for the Congressional land committees

The shape of a man's skill can not, as a general rule, be ascertained by the cut of his coat, yet it is a fact that the long-headed men of Reno are invariably elad in garments bought at the White House.

The Nevada & Oregon Railroad.

General Hatch states that grading on the Nevada & Oregon Railroad will commence as soon as the 'Co.'s contractor arrives. The contractor is Col. WHAT WAS DONE FOR NEVADA. It was fortunate for our State that Gen. Hatch attended this Convention. During the several recesses he had frequent interviews with Commissioner Williamson and finally agreed with him upon the settlement of important

withmison and finally agreed with him upon the settlement of important points regarding our State land matters, which may be recorded as follows:

1st, The Registers and Receivers of the Carson and Eureka Land Districts are to be notified to receive State land selection lists under the two million acre land act, immediately.

2nd, Landa selected within the C. P. rallroad limits are to be listed to the State at the minimum rate, (\$1.25) per acre).

ready appropriated by the State, and lands heretofore selected in lieu of the 16th and 36th sections lost to the State, amounting to nearly 75,000 acres, are to be deducted from the compilion ages grant is to be subacres, are to be deducted from the two million acre grant is to be submitted to the Secretary of the Interior, and if the decision is that such deduction must be made, the law will be amended so as to give the State the full amount.

4th, Balances under the various old

grants, aggregating about 50,000 acres are to be listed to the State at once, reserving for subsequent action all contested cases, which are to be decided without unnecessary delay and a final settlement made.

With the above points settled there seems to be little if any necessity of keeping a State land agent at Washington to look after our land matters.

AN ACCIDENT. Yesterday Alfred Jose of Reno was driving out to the track with a load, when one of his horses kicked over the traces. A man on the seat took hold of the lines and pulled, turning the team over the grade. Jose went under the wagon, and a wheel passed over him, but did him no serious harm. The man who jerked the line had an arm broken.

LORD RUSTLE

How Verses Are Often Spoiled. Oliver Wendell Holmes remarks that poetry is seldom correctly printed in newspapers. The authoress of some anniversary verses, which appeared in the GAZETTE the other day, experienced the truth of that observation when she opened the paper and read the first four lines of her ode, as follows:

"As life its long story unfoldeth,

Some pages walove to read,
All bright with radiant promise,
All gloomy with valiant deed;"

The empositor's embetitution of "gloomy" for "gleaming" was rather unhappy. The verses were read by copy, the proof correctly marked, and the compositor enjoined to "take that "gloomy" out of there." But he didn't make the correction, and that fatal 'gloomy' out of there." But he didn't make the correction, and that fatal "gloomy" went in as it appears above. The compositor still lives, although his life should have been sacrificed on the altar of typographical accuracy. The proof-reader usually gets the discredit of these blunders, although he shares the vexation of the author.

Dr. Sheets came down from Carson

last night.

Brookins sold Jos. Frey a fine Baker piano yesterday.

S. F. Hoole, of the Bodie Standard Ness, was in town yesterday. He has been to the Bay for medical treatment, and returns home in better health.

Don't Forget,

read limits are to be listed to attend the meeting in Justice Young's office at seven o'clock this evening, to make arrangements for the celebration Monday evening.

7,000. The New York "Sun" Con cedes the Election of the

Entire Republican State Ticket in Indiana.

What Thurlow Weed Thinks.

NEW YORK, Oct. 14. Thurlow Weed was asked what he thought of the elections in Ohio and Indiana, He replied: "The victory in Indiana I regard as an event of greater importance and benefit to the country than anything that has happened since the surrender of Lee. I think it settles the Presidential question. It shows that the avowal by Wade Hampton and other leading Confederates that the South was solid, and made so for the purpose of vindicating the principles for which Lee and Jackson fought, has had the effect of making the North solid. The influence of this election will be very great in New York. The interest turns upon this State and in fact upon this city. The counties outside of New York and Brooklyn will give largely increased Republican returns that can only be overcome by gigantic fraud in New York. If business men who were in the procession Monday evening will give their professional attention to the canvass no such frauds can be perpetrated."

EX-GOVERNOR JEWELL Ex-Governor Jewell expressed his opinion as follows: "The result of the election in Ohio and Indiana will secure every Northern State and Florida. It will give us New York by a majority of 40,000."

WHAT THE NATIONAL COMMITTEE SAY. The National Committee has thought that even in the event of losing Indiana, Garfield and Arthur would carry New York by 20,000 ma-

Republicans everywhere to be alert and energetic with a view of rallying up as large majorities as possible The canvass in Indiana was fought with the distinct understanding that the result would settle the Presiden tial election in November. Speakers of pronounced national reputation will take the stump in West Virginia, North Carolina and Florida, and thus carry the war into Africa.

#### Blaine Not Coming.

CHICAGO, Oct. 14. From a personal friend of Blaine a correspondent learns that the distinguished Senator will not visit the Pacific coast during the present campaign. Blaine was anxious to go but Garfield urged him to stay and work in Ohio and Indiana. Blaine's throat was so seriously affected by his continual speaking that the affection threatened to become permanent, and his physicians have ordered complete rest for the present. The Senator will go to work again in New York as soon as able.

Ohlo's Congressmen.

CINCINNATI, Oct. 14. With a gain of six Congressmen. this gives the Democrats Lefevre, Leedom Shaffer Warren and Converse who are members of the present Congress. On the Republican side But-terworth, Young, Neal, Updegraff, McKenley, New, McClure and Townsend, are members of the present Congress. Long, Democratic candidate for Secretary of State, ran ahead of his ticket, because of his personal popularity with the Germans in the northern part of the State, where he is well known personally, while Town-

end is personally unpopular. Butterworth's majority is Young's 900. McMahone of the Fourth District, Democrat, is reported surely

If you go to the right place to get them. This is a mighty important point, tor some people who assert that they sell cheap do nothing of the kind. We do not for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. DEMOCRATIC COUNTY PLATFORM.

The Democracy of Washoe county in convention assembled declare as follows:
That we, the Democracy of Washoe county, endorse and reaffirm the principles enunciated in the platform of the National Convention at Cincinnati, in June last, and also our State Convention at Winnemucca, and heartily approve the lines of government there marked out.

Resolved. That we recognize in our candidate for Congress, the Hon. W. Cassidy, an able attesman and tried gentleman, one who, as Senator in our councils has always far-lessly maintained our principles and labored for the best interests of our State, and we pledge that if elected, among his first legislative acts shall be to introduce such a measure as will make completely operative and effective the plank of the National Platform which demands the prohibition of Chinese immigration, and that we invite to the support of our candidates every voter, of whatever political creed, who sincerely desires that our laboring classes may be forever relieved of the cuine of coolie competition, and cite to them the fact that relief can only come from a Bemocratic Congress, and a Democratic President.

Resolved. That in the person of Judge C l. Belknap we have an eminent jurist, on that is tried and true, and we point with prid that is tried and true, and we point with pride to his past record.

Resolved. That the Democratic party has always meintained that none but residents of Nevada should represent her in the National council, and we depicate the practice inaugurated by Jones and followed by Sharon, of corrupting, by the free use of money, the elective franchise of a free people, and we call upon all Democrats and honest Republicans to come boldly forward and assist mylning out this stain upon the fair name of our young and growing State.

VERMIN DESTROYER WHICH IS KNOWN TO BE FAR superior to anything yet discovered for Killing Rats, Mice, Insects on Ponitry, Anta, Bugs. Cockroaches, Black Beetles, Peas on Dogs, Blight and Insects on Plants, Moths in Furs, Tick or Scab on Sheep or Goats, also on Cattle, etc., etc.

This preparation has been applied with great success against the Insects that attack the Coffee Plants, and would doubtless be as efficacious with the Tes Plants.

The Powder is warranted free from all bad smell, and will keep in any climate. It may be spread everywhere without risk, as it is quite harmless to cats or dogs, as they will not est it.

The above discovery has gained for NOF. HERMAN a Silver Prize Medal at the Inter-Colonial Exhibition of Victoria, Australia, of 1886, Besides numerous Testimunia.
